

Greater Hume Children Services recently hosted a playgroup at Jubilee Park and Culcain Hall, to celebrate the launch of our new branding, which reflects our philosophy of children having fun, learning through play, and incorporating the natural environment.

We had such a beautiful morning, with a small group of families and their children, coming out to play. The trees were amazing and the leaves were falling and blanketing the ground, the children trying to catch them as they fell with lots of laughs and giggles. We had lots of imaginative play, making compost, with the leaves, cooking and using the loose parts, to make some tea, and to extend on their imagination play, but we also did so much more ... making new friends, let's see what we got up too..

Would you like your child or children to receive care and early childhood education in a homely, safe environment in a small group where you develop a partnership with the Educator? Our service offers education and care with Educators that are qualified early childhood professionals, providing care in their homes.
