# Local Preference Purchasing Policy

Council has adopted a Local Preference Purchasing Policy. The policy has been designed to achieve best 'overall value for money' in its procurement of goods and services, while (where possible) giving preference to local suppliers, and non-local suppliers using local content to support the economic development of Greater Hume's local government area.

The full policy can be read here <https://bit.ly/2TQGnun>

Key points from the policy include the definition of 'local supplier' and a scale about the procedure for purchases from levels under \$2,500, between \$2,500 and \$5,000 and above \$5,000, then a two tiered system for purchases less than \$100,000 and for purchases over \$100,000 where public quotations must be sought.

The policy considers those quotations/tenders provided by local businesses and businesses external to the shire using the goods and/or services of local businesses.

Through the use of this policy, Council actively supports the Buy Local in Greater Hume initiative.

# Register as a Council Supplier on VendorPanel

Greater Hume Council uses VendorPanel to streamline its procurement process and ensure regulatory compliance using preferred suppliers. The VendorPanel software application is specifically designed to reduce risk and increase value in local government procurement.

Benefits for suppliers include:

- Suppliers don't need to provide the same document over and over again
- Increase access - fairer and better access to business opportunities with Council
- It's simple to use – just add your business details and relevant compliance documents
- Provides a consistent format and process
- Simplifies management of compliance documents for Council
- Gives Council staff an easy way to send out quotes, increasing the chance of you hearing about contracts
- Allows you to manage multiple supplier lists from one account
- Easily download reports on all the requests you receive, with a record of what you responded to

**To register** as a Council supplier contact Susan Shanahan T: 02 6036 0100.

# Definition - 'Local Supplier'

Council has adopted a Local Preference Purchasing Policy. The policy has been designed to achieve best 'overall value for money' in its procurement of goods and services, while (where possible) giving preference to local suppliers, and non-local suppliers using local content to support the economic development of Greater Hume's local government area.

The full policy can be read <https://bit.ly/2TQGnun>. The policy defines 'local supplier' as

(b) **Local supplier** means a business, contractor or industry:

1. either permanently based in, or employing permanent staff operating from permanent premises situated within the Greater Hume Council LGA boundaries for not less than six months prior to the date of the Procurement Request, and
2. registered or licensed in New South Wales or
3. where at least one of the key principals of the business, contractor or industry have been a ratepayer of Greater Hume Council for not less than six months prior to the date of the procurement request.
