### COVID-19 VACCINATION

We continue to urge everyone who hasn't done so already to come forward for vaccination.

Everyone in Australia aged 12 and over can receive a COVID-19 vaccination. Vaccination appointments can be booked via the [Australian Government Vaccine Clinic Finder](#).

Vaccination is the best way to protect our kids, families and the wider community from COVID-19. This is an important step in getting our community back to a 'COVID-normal' environment and importantly, to protect others who may be more vulnerable to illness.

MLHD is working with the NSW Department of Education to vaccinate students.

## SEWAGE DETECTIONS

Fragments of the virus that causes COVID-19 have recently been detected in sewage in Wagga Wagga (Koorinal) and Albury. MLHD is aware of a number of cases in these areas which are the likely contributors to the positive results.
