Local Preference Purchasing Policy

Council has adopted a Local Preference Purchasing Policy. The policy has been designed to achieve best 'overall value for money' in its procurement of goods and services, while (where possible) giving preference to local suppliers, and non-local suppliers using local content to support the economic development of Greater Hume's local government area.

The full policy can be read here <http://bit.ly/2oNj5ln>

Key points from the policy include the definition of 'local supplier' and a scale about the procedure for purchases from levels under \$2,500, between \$2,500 and \$5,000 and above \$5,000, then a two tiered system for purchases less than \$100,000 and for purchases over \$100,000 where public quotations must be sought.

The policy considers those quotations/tenders provided by local businesses and businesses external to the shire using the goods and/or services of local businesses.

Through the use of this policy, Council actively supports the Buy Local in Greater Hume initiative.

VendorPanel coming soon

Greater Hume Council is pleased to advise that it will soon launch a new procurement system powered by VendorPanel.

Why...

Council is adopting this new approach to make it easier to engage with suppliers and increase governance and transparency in the quotation process. This new system provides an opportunity for businesses to have their goods and services seen by Greater Hume Council procurement staff.

It's free for suppliers to register and easy to use! Council staff will be able to request quotes directly from registered businesses.

As a business you will receive sales opportunities direct to your inbox!

If you are interested in learning more about the award winning VendorPanel technology, you can visit vendorpanel.com

Greater Hume Council looks forward to bringing you more updates soon.
