Dear Kerrie,

I am writing on behalf of the Brocklesby Recreation Reserve and associated organisations to express our interest in hosting the Australia Day 2023 celebrations.

The Brocklesby community is thrilled with their new facilities at the Recreation Reserve and are keen to utilise them as much as possible. Furthermore, it will provide an opportunity for us to landscape and improve the external area around the new building.

We have previously held such events and feel we could meet the requirements of the council.

We thank you for your consideration and look forward to hearing from you.

Kind Regards,

Jessica I'Anson

### **MORE LOCAL ROADS TO BE FIXED IN THE REGIONS**

The NSW Government will help turbocharge efforts by local councils to upgrade the roads communities use every day, with applications now open for Round 4 of the Fixing Local Roads program.

Acting Premier and Minister for Regional NSW Paul Toole said hundreds of millions of dollars was already rolling out to help regional councils right across the State to upgrade local road networks.

“Regional communities are already reaping the benefits of this program, with \$547 million out the door for 498 projects in the first three rounds - 203 are already open to traffic and a further 295 in the planning and construction phases,” Mr Toole said.

“These are small projects making a big difference to the trips people make every day to get to work, school and home again.”

Minister for Regional Transport and Roads Sam Faraway said the latest round of funding can be directed towards fixing potholes and general road maintenance on local roads. This comes as the Government works around the clock to return the regional road network back to community standards after recent extreme weather events.

“NSW has certainly had its fair share of natural disasters and extreme weather, and while we cannot control Mother Nature, we can control our response by improving the standard of our local road network,” Mr Faraway said.

“We have already funded almost 500 Fixing Local Roads projects across 95 regional councils, reducing the maintenance burden on local councils which are responsible for maintaining well over 85 per cent of the state’s 180,000-kilometre road network.

“After 16 years, the former Labor Government left NSW with a \$30 billion infrastructure backlog, our Government is building our way forward with a \$19.4 billion regional roads and transport infrastructure pipeline.”

Applications for Round Four are open until Friday, 9 September 2022.

OFFICIAL

499 projects all across regional NSW, from Wagga Wagga to Walgett and Bourke to Bathurst have been funded under the Fixing Local Roads Program

## 153,000km

NSW local councils are responsible for more than this distance of Regional and Local Roads. This is over 85 per cent of the total NSW road network.

## \$691M

The total amount of funding for the entire program is \$691M from both NSW and Australian Government.

### The Fixing Local Roads Program

The Fixing Local Roads Program is a \$500 million NSW Government Program enabling councils to accelerate upgrades and maintenance on their local road network.

In 2020, the Australian Government committed an additional \$191 million to support economic activity in Regional NSW and accelerate the delivery of the Program. This increased the total funding to \$691 million.

Fixing Local Roads is a grant-based program where councils can apply for funding to repair, patch, maintain and seal priority local council roads improving routes that regional communities use every day, making journeys for locals, farmers and freight safer, more efficient and more reliable. Applications can be made for a 100 per cent contribution from the NSW Government for specific works. Councils are encouraged to co-contribute to any projects; a general rule of thumb is a minimum co-contribution of 25 percent.

### Eligibility

Eligible projects are required to meet a series of criteria set out in the Program Guidelines. Projects must be:

- located on a Local Road managed by Council
- identifiable as a priority or important Local Road for the local government area or region
- deliverable within 24 months of notification from Transport for NSW
- maintenance driven such as repairing, patching, maintaining, or sealing existing roads.

Ineligible projects include:

- building new roads or only widening shoulders
- any project on the State or Regional road network or
- any project on private roads.

95 regional local government bodies are eligible and invited to apply for Round 4 of the Program. See the Eligibility List for more details.

## Applications

An online application form and supporting documents can be obtained from the Fixing Local Roads webpage at [nswroads.work/fixinglocalroads](https://nswroads.work/fixinglocalroads).

Relevant information about criteria, key dates and how to apply can be obtained from the Fixing Local Roads Program Guidelines.

Applications must be submitted online via the SmartyGrants system. <https://transportfornew.smarthygrants.com.au/FLRRound4>.

## Timeframe for works

All works must be completed within 24 months of notification from Transport for NSW to ensure local communities are getting the benefits sooner.

Projects must also be able to commence in the first 12 months from receipt of a signed funding deed.

## Application assessment

The Fixing Local Roads Program adopts a multi-criteria assessment of every application. Projects will be selected for funding based on the ability to deliver against the following objectives:

Promotes regional economic activity.

Enhances regional connectivity and sustainability.

Enables a safer regional road network.

Evidence of on time delivery with agreed milestones in previous rounds.

Each project will be subject to a comparative assessment of both merit and prioritisation attributes to enable selection of projects which meet the program objectives and contain particular attributes which may warrant higher consideration.

## Merit assessment

The application will seek detailed responses from councils to questions which will enable the evaluation panel to make a determination of the following:

- Does the project meet the objectives of the Program?
- Has the application provided measurable justification and/or evidence to demonstrate alignment to the program objectives?
- Are the cost, schedule, risk and assumptions of the project delivery well documented?
- Have projects from previous rounds been delivered within agreed milestones (except where there are exceptional

circumstances)?

- Are there special considerations (e.g. drought hardship, connecting Indigenous communities)?
- Is there a co-contribution, other funding source to optimise community outcomes?

Some documentation may be required in support of the applications, including photographic evidence, detailed project development information and asset management plans.

Merit-based questions will be assessed on a score of 1 (poor) to 3 (very good) based on the information provided in the application form. The scores will be combined into a single multi-criteria score based on a weighting for each criterion.

Projects must be able to commence in the first 12 months from receipt of a signed funding deed.

All works must be completed within two years of receiving funding to ensure local communities are getting the benefits sooner.

The evaluation criteria and corresponding weighting are outlined on Page 3.

## Prioritisation assessment

To support Transport for NSW in being able to distinguish and prioritise the applications, the application form includes a number of questions to enable a better understanding of which projects may warrant higher consideration.

Application questions require applicants to provide specific information and/or select from a range of attributes specific to the road and/or the project.

Attributes informing prioritisation include:

- being able to commence in the first 12 months from receipt of signed funding deed
- job creation and local investment
- road condition and function
- Road Infrastructure Risk Rating
- frequency of closures due to weather/heavy haulage damage.

Responses to prioritisation questions will generate a score between 1-3 and will contribute to the overall evaluation score.

## Previous submissions

Councils are invited to resubmit applications for projects which were not approved for Rounds 1-3 funding.

Due to the changed application requirements, it is recommended councils resubmit through the SmartyGrants system to provide the evaluation team with the full application requirements to progress through the assessment process.

Program Outcomes	Program Objectives	Criteria Weighting	Evaluation Criteria
Outcome 1: The program promotes regional economic activity	Promotes regional development in rural communities	15%	The project is able to commence in the first 12 months from receipt of signed funding deed and deliverable within 24 months of notification from TfNSW. The project will generate local jobs for regional and rural communities and supports community connections which further enable job generation and economic growth, e.g. freight, tourism, industry.
	Supports families in rural and remote areas	15%	The project enables improved access to one or more of the following: <ul style="list-style-type: none"> <li>• health care</li> <li>• education</li> <li>• access to social and community benefits</li> </ul>
Outcome 2: The program enhances regional connectivity and sustainability	Improves the reliability of the local road network	15%	The project will significantly improve the current local road condition
	Assists councils to sustainably manage their assets	10%	The project forms part of an existing strategic asset management strategy and will directly minimise ongoing reactive maintenance costs. The project aims to address damage caused by State Forests, mining.
	Improves the resilience of the local road network	15%	The project will improve the productivity of the local road network by reducing frequency of road closures, speed restrictions building resilience to natural disasters / weather events / heavy vehicle damage.
Outcome 3: The program enables a safer regional road network	Improves local road safety	15%	The project / proposed solution contributes to a safer road network
Reasonableness & Deliverability	Credibility and integrity of the project application	5%	Application has sufficient detail to support the credibility and integrity of the project costs, schedule, risks and assumptions.
Special Considerations	Hardship Connects indigenous communities	5%	Yes / No
Co-contribution / other funding source	=/> Contribution from Council or other party	5%	The amount of co-contribution Council or a party other than Council make to the project.

## Funding limits

There is no limit to the number or total value of project applications which can be submitted to the Fixing Local Roads Program each round. Councils may apply for up to 100 percent of the project value.

There is a maximum funding limit of \$3 million of State contribution per project which can be granted to a council for each round of the Program. And there is a maximum \$1 million funding limit for group applications where economies of scale can be achieved by bundling similar projects.

## Reporting and payments

Councils will be required to report on the planning, progress and completion of projects and provide supporting information.

We will provide monthly reporting requirements to successful councils following the evaluation and assessment process.

Grant funding will be milestone based with an initial payment of 20 per cent upon receipt of a signed Funding Deed, 50 per cent upon

commencement of construction, 20 per cent upon open to traffic and the remaining balance of project costs, up to 10 per cent of the grant fund, upon submission of a Project Completion Report and the satisfactory completion of the project.

TfNSW will be conducting audits of some projects to assess cost and schedule performance.

## Timing of notifications

Councils will have six weeks from receiving a notification letter to enter into the funding agreement.

We encourage councils to consider making arrangements to enable approvals outside of regular council meeting dates if required.

## Contact details

Questions about Fixing Local Roads including eligibility and the application process can be emailed to [fixinglocalroads@transport.nsw.gov.au](mailto:fixinglocalroads@transport.nsw.gov.au)

## Frequently Asked Questions

### What if the project has already commenced?

Councils cannot nominate projects which have already commenced. Commenced projects are ineligible for consideration. Funding cannot be retrospectively applied.

### Can councils apply for multiple projects?

There is no limit to the number or total value of project applications which can be submitted to the Fixing Local Roads Program each round. Councils may apply for up to 100 percent of the project value, but co-contributions from Council are strongly encouraged and will be considered relevant to Council's funding position.

Councils are recommended to consider the program objectives and Council's strategic and/or operational plans in selecting which projects are most suitable for funding by the Fixing Local Roads Program. There may be other grant programs which are more suitable for some projects.

There is a maximum funding limit of \$3 million of State contribution which can be granted to a council per project for each round of the Program, irrespective of the outcome of the evaluation process. And there is a maximum \$1 million funding limit for group applications where economies of scale can be achieved by bundling similar projects.

### If I submit multiple project applications, can I submit them in order of priority?

Every project and application will be assessed against the merit and prioritisation criteria separately. The outcome of the combined assessment will enable Transport for NSW to prioritise projects to be funded.

Projects which best meet the program objectives and prioritisation assessment will be best positioned for program funding.

As part of the application form, Council is required to include what priority the road is to their works plan. Council prioritisation will be considered through the assessment process where projects have similar scores.

### Can I group projects in one application?

Councils are recommended to consider the program objectives and application questions to determine the best projects to submit. Every project and application will be assessed against the merit and prioritisation criteria separately. The outcome of the combined assessment will enable Transport for NSW to prioritise projects to be funded.

Projects which best meet the program objectives and prioritisation assessment will be best positioned for program funding. There is a maximum funding limit of \$3 million of State contribution per application (for an individual road project) which can be granted to a council for each round of the Program.

Where projects have the same/similar scope and can be completed together to achieve economies of scale, they can be submitted in one application. There is a maximum \$1 million funding limit for group

applications where economies of scale can be achieved by bundling similar projects.

### How do I use SmartyGrants?

SmartyGrants is a secure, online portal which provides a platform for submission and assessment of project applications. It is used by many government agencies in the management of grant funds.

Councils will need to create a SmartyGrants login to access and lodge submissions. If Council already has an account and needs login details updated, please email [fixinglocalroads@transport.nsw.gov.au](mailto:fixinglocalroads@transport.nsw.gov.au)

### Will there be future rounds of Fixing Local Roads?

Through Rounds 1 to 3 of Fixing Local Roads, over \$545 million has already been allocated to 499 projects across the state. Once applications for Round 4 have closed and been assessed, a prioritised list of eligible projects will be developed which will exhaust remaining Program funds.

### Is there a minimum co-contribution?

Councils which have a co-contribution of equal to, or greater than 25% will be eligible to receive corresponding points during the merit assessment.

Councils who are experiencing hardship can outline ineligibility in meeting this evaluation criteria. There is no minimum co-contribution and councils may apply for up to 100% of the total project cost.

Co-contribution can also be made by third parties, including those from other State or Federal grant programs and private industry.

### Why do I need to provide a contingency value?

Councils must ensure there is sufficient funding to complete the project scope. Councils must assess project risk to calculate the required contingency to deliver the project.

The contingency value must be included in the Total Project Estimate. Councils must provide the assumptions used to formulate the project contingency in the application.

Councils may not apply for additional funding during, or at the completion, of the project.

### **What happens if the total project costs less than the funding that has been granted?**

Transport for NSW will release 20 per cent of the total grant upon execution of the funding agreement, 50 per cent will be released upon construction commencement and 20 per cent at open to traffic. Upon completion of the project, councils will be required to submit a Project Completion Report detailing the total project costs. TfNSW will assess performance against the initial cost estimates and project milestones.

Councils will be required to provide actual costs of the project.

Transport for NSW will release the remaining balance of project costs up to 10 per cent of the grant value.

Any project savings will be deducted from the balance of final payment to be redistributed back into the Program.

### **What if Council has applied for funding under alternate grant programs?**

In these instances councils should apply for the full funding amount and note that co-funding has been applied for. If successful in the alternate program, councils should notify Transport for NSW of the amount of co-funding received. Notifications relating to the Program can be made through the relevant Transport for NSW Local Government Manager.

In some cases, grant funding from another program may be considered as part of a co-contribution if there is new scope proposed for the same project location. Councils may not receive funding from two separate sources for the same scope in one project.

### **How much detail do I need to provide in the application?**

The assessment panel can only score the applications based on the information provided. The responses must include as much information as possible to enable the panel to assess the project against the evaluation criteria.

Responses must include specific details about the project, e.g. the length of the road where improvements will be made. Each response must directly answer the question.

Ensure your answers are consistent, and correspond with related sections, for example the number of generated jobs, number of hours work generated by the project, the benefit to the region and community when the project is delivered.

Councils are encouraged to be as accurate as possible in their cost estimates. TfNSW will be undertaking audits of projects to assess performance against the cost and schedule. Performance will also be assessed upon submission of the Project Completion Report which will require the both the initial estimates and actual costs expended on the project.

### **How do I answer questions about traffic volumes?**

Traffic volumes are addressed in two sections, to understand the anticipated increase in traffic volumes due to the project, and as part of the Infrastructure Risk Rating calculation.

The appropriate response to the Current Traffic Volumes is either; actual total numbers for the most recent year of available data or where data is not available, the annual average can be calculated by daily traffic volumes divided by 365.

The appropriate response to the Infrastructure Information section is the Average Annual Daily Traffic Average (vehicles per day) as identified in the Infrastructure Risk Rating Manual for Australian Roads (AP-R587A-19,) available on the Austroads website.

### **What do I do if there are multiple projects on the same road?**

There is no limit to the number of applications a council can submit. Council should demonstrate how these projects meet the program objectives, and if they should be applied for separately. Council should also clearly indicate road priority in their application.

### **Does the \$3 million funding limit apply to forestry roads?**

Yes, standard funding limits as outlined in the 2022 Fixing Local Roads Program Guidelines and this Fact Sheet apply to forestry roads.

### **Can Fixing Local Roads funding be used in conjunction with other State funding?**

Yes. As outlined in the 2022 Fixing Local Roads Program Guidelines councils are strongly encouraged to source additional investment to support their applications and enhance their local road maintenance projects.

This might include, for example, working with mining and forestry industries to gain co-contributions or applying for Australian Government funding. Councils are also encouraged to leverage funding from other NSW Government programs to maximise community benefits from the project.

## Message from the Minister

The NSW Government is building a safer, stronger regional NSW through our record \$19.4 billion investment into regional roads and transport infrastructure.

In doing this we are setting the stage for the state's prosperity that will secure a brighter future for regional NSW families.

I am very pleased to announce the opening of the fourth round of the Fixing Local Roads Program, which has come at a critical time for our state.

NSW has faced more than its fair share of challenges over the past two years and that is why it is important, now more than ever that we continue our strong working relationship with rural and regional councils to improve our local road network.

**Sam Farraway MLC**

**Minister for Regional Transport and Roads**

The \$500 million Fixing Local Roads Program has provided a major funding boost to councils to carry out vital maintenance and repairs on local roads since 2019.

To date, Fixing Local Roads has supported 499 projects, totalling over \$547 million in financial investment, assisting 95 eligible councils with their road maintenance backlog.

This isn't our only investment into local roads. Councils hardest hit by the North Coast floods were advanced \$46 million in emergency funding to kick start urgent road repairs, and for the first time ever, councils can rebuild roads better than the original structure through the \$312 million Regional Roads and Transport Recovery Package.

The Commonwealth Government committed an additional \$191 million to the Fixing Local Roads Program in 2020 to support economic activity in regional NSW. This increased the total funding for Fixing Local Roads to \$691 million.

Our Government has got Regional NSW working again and our strong economic management ensured regional communities survived the tough times and came through stronger and more resilient.

I strongly encourage councils to apply for this latest round of funding so we can get on with the job of delivering smoother and safer roads for our community.

# Introduction

The NSW Government has committed \$500 million to the Fixing Local Roads Program to improve local roads across rural and regional NSW. This investment is helping to reduce the maintenance backlog for councils, targeting roads that do not meet the freight significance or benefit to cost ratio requirements of the current Fixing Country Roads Program. Fixing Local Roads aims to fund improvements to local roads that will deliver smoother, safer and more reliable journeys.

Councils are now invited to submit applications for the next round of the Program to further support investment in local road improvements.

These guidelines provide an overview of the Fixing Local Roads Program, the eligibility criteria, and details about the application and assessment process which have been refined for Fixing Local Roads Round 4.

# Overview

Fixing Local Roads will provide funding to councils to repair, maintain or seal priority or important local roads.

In recognition of the changing economic environment and need to stimulate regional economies, we have refined the outcomes for the Fixing Local Roads Program to ensure applications for the best-suited projects are submitted.

Projects will be selected for funding based on the ability to deliver against the following:

- promotes regional economic activity
- enhances regional connectivity and sustainability
- enables a safer regional road network
- evidence of on time delivery with agreed milestones in previous rounds.

Accordingly, it is important for applications to include relevant evidence and information which demonstrates how the projects can deliver the outcomes of the Program.

These guidelines will support councils in preparing applications by having a strong understanding of the types of projects which

will deliver the best community and value for money outcomes and the way in which the applications are evaluated.

To inform project selection, Transport for NSW will be considering the following attributes specific to the road, or the project outcomes:

- projects which are able to commence in the first six months from receipt of a signed funding deed
- projects which create jobs and economic growth
- current road condition
- local road function and importance
- the Infrastructure Risk Rating of the road
- frequency of lane/road closures due to weather or heavy haulage.

We will also give consideration to councils which may be experiencing hardship or choose to nominate projects which connect Indigenous communities.

Demonstration of co-contribution, or leveraging other grant programs to optimise outcomes, will also be considered in the evaluation process.

**Alignment with Future Transport Strategy 2056**

Transport for NSW’s Future Transport Strategy 2056, through its Regional Services and Infrastructure Plan, identified the need to continue to build and improve local infrastructure such as roads, rail and bridges in regional and rural NSW. This is being done through a combination of initiatives including Fixing Country Roads, Bridges for the Bush, Fixing Country Bridges, Walking and Cycling programs, Targeted Road Safety Works as well as Fixing Local Roads.

Future Transport Strategy 2056 also recognises the need for a more integrated local and state road network to provide seamless and safe journeys for all customers.

Fixing Local Roads will support councils to repair and maintain those important local roads that will improve road safety and support freight, regional travel and connectivity.

**Fixing Local Roads Program objectives**

Well-maintained roads play a vital role in our regions, supporting growth and development, as well as providing safe and reliable access to critical services, such as hospitals and schools.

The objectives of the Fixing Local Roads Program are aligned with the Regional NSW transport customer outcomes of the Future Transport Strategy 2056 Regional NSW Services and Infrastructure Plan including:

- safely, efficiently and reliably moving people and goods
- sustaining and enhancing the liveability of our places
- accessible for all customers
- makes the best use of available resources and assets.

Table 1 Fixing Local Roads Program outcomes and objectives

Future Transport 2056		
Regional NSW Services and Infrastructure Plan	Fixing Local Roads Program outcomes	Fixing Local Roads Program objectives
Customer outcomes		
Safely, efficiently and reliably moving people and goods  Sustaining and enhancing the liveability of our places  Accessible for all customers  Makes the best use of available resources and assets	The program promotes regional economic activity	Promotes regional development in rural communities
		Supports families in rural and remote communities
	The program enhances regional connectivity and sustainability	Improves the reliability of the local road network
		Assists councils to sustainably manage their assets
		Improves the resilience of the local road network
	The program enables a safer regional road network	Improves local road safety

# Eligibility

## Who can apply?

The Fixing Local Roads Program is available to the 93 regional councils listed in Appendix 1, as well as the Unincorporated Far West and Lord Howe Island Board.

Councils are encouraged to work with their neighbouring councils to put forward nominations that address regional priorities. Councils are also encouraged to work with their Joint Organisation of Councils (JOs) to identify these regional priorities.

Councils and Joint Organisations should contact Transport for NSW via [fixinglocalroads@transport.nsw.gov.au](mailto:fixinglocalroads@transport.nsw.gov.au) to seek advice on potential projects and for information on preparing applications.

## Eligible projects

Councils will be able to apply for grants to repair priority local roads. Projects should meet the following requirements to be eligible for consideration. The project must be:

- located on a Local Road managed by council (note: Regional and Crown roads are not eligible)
- identifiable as a priority or important local road for the local government area or region
- able to commence in the first 12 months from receipt of signed funding deed
- deliverable within 24 months of notification from Transport for NSW
- maintenance-driven such as repairing, patching, maintaining or sealing existing roads.

Examples of eligible projects are:

- repairing potholes on a key local road
- sealing an unsealed road that will improve safety or improve access to services or industry
- patching or repairing cracking on a key local road.

Examples of ineligible projects are:

- widening shoulders or building new roads
- any project on private roads
- any project on the State or Regional road network.

Funding is specific to projects and is not transferable.

# Application and evaluation process

## Multi-criteria analysis

Transport for NSW has refined the application, evaluation and prioritisation process since Round 1 was launched in 2019 and Round 2 and Round 3 were launched in 2021.

A multi-criteria assessment process will be used to assess council applications and is consistent with the Transport for NSW Principles and Guidelines for Economic Appraisal of Transport Investments and Initiatives.

Each project will be subject to a comparative assessment of both merit and prioritisation attributes to enable selection of projects which meet the program objectives (refer page 8) and contain particular attributes which may warrant higher consideration (refer page 9).

For all proposals, applications will be lodged via the SmartyGrants system and respond to all questions included on the application form.

## Merit assessment

The application will seek detailed responses from councils to questions which will enable the evaluation panel to make a determination of the following:

- Does the project meet the objectives of the program?
- Has the application provided measurable justification and/or evidence to demonstrate alignment to the program objectives?
- Are the cost, schedule, risk and assumptions of the project delivery well documented?
- Have projects from previous rounds been delivered within agreed milestones? (Except where there are exceptional circumstances e.g. natural disasters)
- Are there special considerations e.g. drought hardship, connecting Indigenous communities?
- Is there a co-contribution funding source to optimise community outcomes?

Some documentation may be required in support of the applications, including photographic evidence, detailed project development information and asset management plans.

Merit-based questions will be assessed on a score of 1 (poor) to 3 (very good). The scores will be combined into a single multi-criteria score based on a weighting for each criteria.

The criteria and weighting is shown in Table 2.

## Prioritisation assessment

To support Transport for NSW to distinguish and prioritise the applications, the application form includes a number of questions to enable a better understanding of which projects may warrant higher consideration.

Application questions require applicants to provide specific information and/or select from a range of attributes specific to the road and/or the project.

Attributes informing prioritisation include:

- Job creation and local investment
- Road condition and function
- Road Infrastructure Risk Rating
- Frequency of closures due to weather/ heavy haulage damage.

Responses to prioritisation questions will generate a score between 1-3 and will contribute to the overall evaluation score.

Councils may choose to resubmit unsuccessful applications from previous rounds if they meet the criteria of Round 4.

Table 2 Merit assessment evaluation criteria and weightings

Program outcomes	Program objectives	Criteria weighting	Evaluation criteria
Outcome 1: The program promotes regional economic activity	Promotes regional development in rural communities	15%	The project is able to commence in the first 12 months from receipt of signed funding deed and deliverable within 24 months of notification from TfNSW. The project will generate local jobs for regional and rural communities and supports community connections which further enable job generation and economic growth, e.g. freight, tourism, industry.
	Supports families in rural and remote areas	15%	The project enables improved access to one or more of the following: <ul style="list-style-type: none"> <li>health care</li> <li>education</li> <li>access to social and community benefits.</li> </ul>
Outcome 2: The program enhances regional connectivity and sustainability	Improves the reliability of the local road network	15%	The project will significantly improve the current local road condition.
	Assists councils to sustainably manage their assets	10%	The project forms part of an existing strategic asset management strategy and will directly minimise ongoing reactive maintenance costs. The project supports maintenance of roads impacted by harvesting of State Forests.
	Improves the resilience of the local road network	15%	The project will improve the productivity of the local road network by reducing frequency of road closures, speed restrictions building resilience to natural disasters / weather events / heavy vehicle damage.
Outcome 3: The program enables a safer regional road network	Improves local road safety	15%	The project / proposed solution contributes to a safer road network.
Reasonableness & Deliverability	Credibility and integrity of the project application	5%	Application has sufficient detail to support the credibility and integrity of the project costs, schedule, risks and assumptions.
Special Considerations	Hardship / Connects Indigenous communities	5%	Yes / No
Co-contribution / other funding source	Contribution from Council or other party	5%	The amount of co-contribution Council or a party other than Council make to the project.

**Benefit to Cost Ratio (BCR)**

Fixing Local Roads will not require projects to meet a threshold BCR for applications to be considered. This is consistent with the program objectives of delivering funding support to councils for projects that may have an economic, social or safety benefit and to enable rapid mobilisation of regional economic activity. Projects will still be assessed on a value-for-money basis.

**Other supporting information**

Applicants are encouraged to provide documentation in support of their application. This documentation may include photographs, engineering reports, road priority hierarchy and reports, maintenance reports, recent weather events not previously captured by a Natural Disaster Declaration.

**Assessment panel**

An assessment panel will be established by Transport for NSW and consist of relevant technical and policy subject matter experts. Members of the assessment panel will review and conduct scoring for each application and make a recommendation to government on those projects that best meet the program objectives.

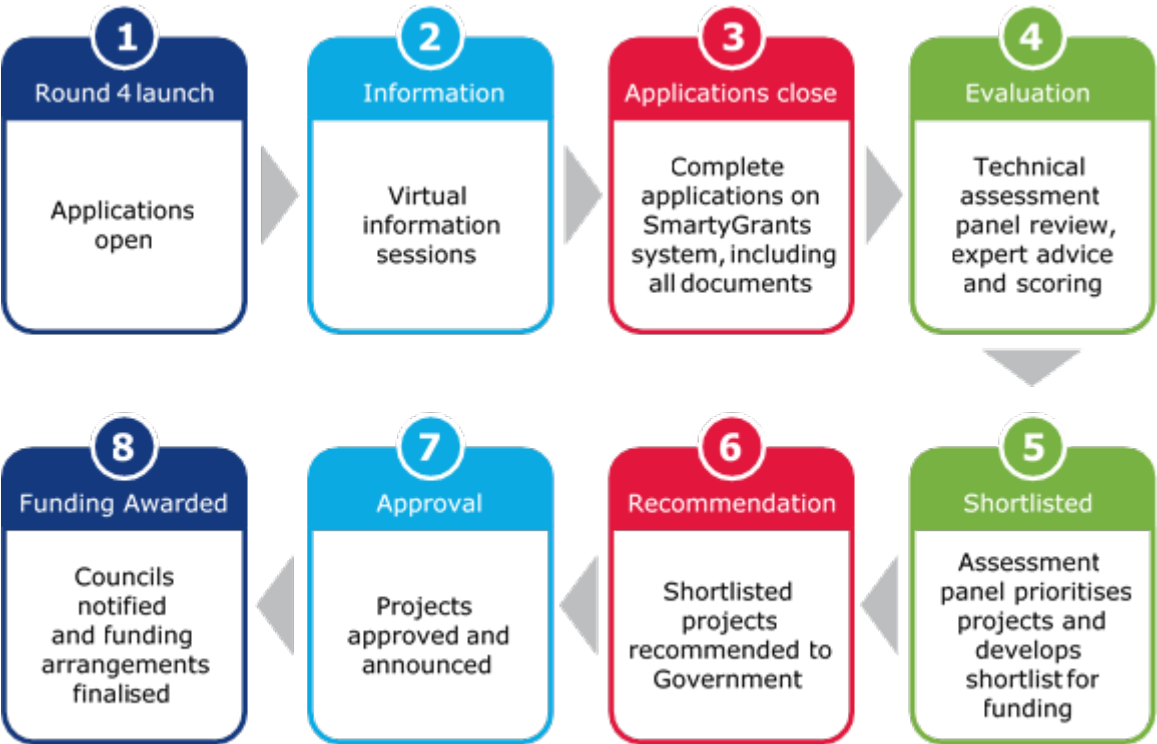

The government will then announce those projects that have been deemed successful and are to receive the funding.

The decision of government will be final. The government may also, in its absolute discretion, choose not to award funding to projects that may have met the criteria.

How to apply

**Application and assessment process**

An overview of the stages of the application and assessment process is shown below.

## Key dates

Round	Applications open	Applications close	Successful projects Announced	Project complete
Round 4 – 2022	26 July 2022	9 September 2022	November 2022	24 months from notification by Transport for NSW

Information related to potential future rounds may be advised at a later date.

## Funding limits and co-contributions

There is a maximum funding limit of \$3 million of State contribution per council per application (for an individual road project). There is a maximum funding limit of \$1 million of State contribution for applications containing more than one individual road project, such as a single application to seal multiple roads in order to achieve procurement efficiencies. There is no limit to how many applications each council can submit; however councils are advised to prioritise and put forward their most strategically important projects.

Council can apply for up to 100 per cent of the value of the project, but co- contributions from council are strongly encouraged and will be considered relevant to Council's funding position. A general rule of thumb is a minimum co-contribution of 25 per cent. Non-compliant proposals may be considered.

Councils are strongly encouraged to source additional investment to support their applications and enhance their local road maintenance projects. This might include, for example, working with mining and forestry industries to gain co-contributions or applying for Australian Government funding. Councils are also encouraged to leverage funding from other NSW Government programs to maximise community benefits from the project.

## Forestry roads

The NSW Government is aware of the concerns of a number of councils regarding the unique challenges maintaining roads in LGAs with large areas of State Forest. In response to these concerns, a proportion of funding from the total allocation will be allocated specifically for roads in forestry areas.

## Payment and reporting milestones

Payments will be made to councils throughout the project to support councils to deliver the project, on time and within budget. Councils will be required to report on the planning, progress and completion of projects and provide supporting information.

Final payment will be made upon satisfactory project completion and receipt by Transport for NSW of a final project report. Unless otherwise agreed, payments to councils will be in accordance with the four milestones below:

- reach agreement with Transport for NSW regarding the funding arrangements – 20 per cent
- commence construction on the project – 50 per cent
- project open to traffic – 20 per cent
- certification and final report that the project has been completed and an audit by Transport for NSW (project complete) – balance of project costs (up to 10 per cent).

Final payment will be made upon satisfactory project completion and receipt by Transport for NSW of a final project report which requires actual expenditure information.

### How to apply

The online application form can be accessed by logging into SmartyGrants via the Fixing Local Roads website [nswroads.work/fixinglocalroads](https://nswroads.work/fixinglocalroads)

Councils must provide all the information required in the application form including the mandatory fields and are encouraged to provide additional materials to support their case in relation to the assessment criteria.

Supporting documents will be required to assist in the evaluation process and must be submitted with the application form via the SmartyGrants system.

Councils located in areas which have been drought declared and/or provide drought hardship relief provisions to their communities, should detail this to support their application and provide examples of those provisions.

Only completed applications received by 5pm on the closing day will be accepted and assessed. Late submissions will not be accepted unless Transport for NSW considers exceptional circumstances beyond the Council's control.

Councils may withdraw an application at any time, with written advice of the withdrawal to be provided to Transport for NSW via email to [fixinglocalroads@transport.nsw.gov.au](mailto:fixinglocalroads@transport.nsw.gov.au)

Requirements of the application form are outlined on the program website.

### Confidentiality and disclosure

All information submitted by the Council may be provided to other organisations for the purposes of eligibility, project proposal appraisal or deed preparation.

Councils should notify Transport for NSW when including any information of a confidential nature in their application.

Summary information about the project will be posted on Transport for NSW's website unless councils advise that they do not agree to its publication.

Information provided may be subject to future project audits and must be correct, including factual information about the road particulars (e.g. road traffic volume).

### Further information

Transport for NSW will conduct virtual information sessions early in the application period.

Invitations will be distributed directly to councils via a local Transport for NSW representative.

If you do not receive an invitation and believe you should attend, please contact [fixinglocalroads@transport.nsw.gov.au](mailto:fixinglocalroads@transport.nsw.gov.au)

A program fact sheet is available on the program website [nswroads.work/fixinglocalroads](https://nswroads.work/fixinglocalroads)

## Contact details

Questions about Fixing Local Roads, including eligibility and the application process, can be emailed to [fixinglocalroads@transport.nsw.gov.au](mailto:fixinglocalroads@transport.nsw.gov.au)

# Jingellic Road Upgrade Project

## Introduction

This report was developed following a request by Council to develop a strategy for the upgrading of the entirety of Jingellic Road from Holbrook to the Shire Boundary.

Jingellic Road is a Regional Road 45.2km in length commencing at Holbrook (Intersection with Albury Street), and finishing at the Jingellic Creek (bridge).

The report details the works and associated costs (current and future) required to upgrade the road to standards detailed in Council's Road Strategy.

Accident data and recent traffic count data are also detailed in the report.

Staging of works is also detailed, due to the significant upgrade costs of the entire project

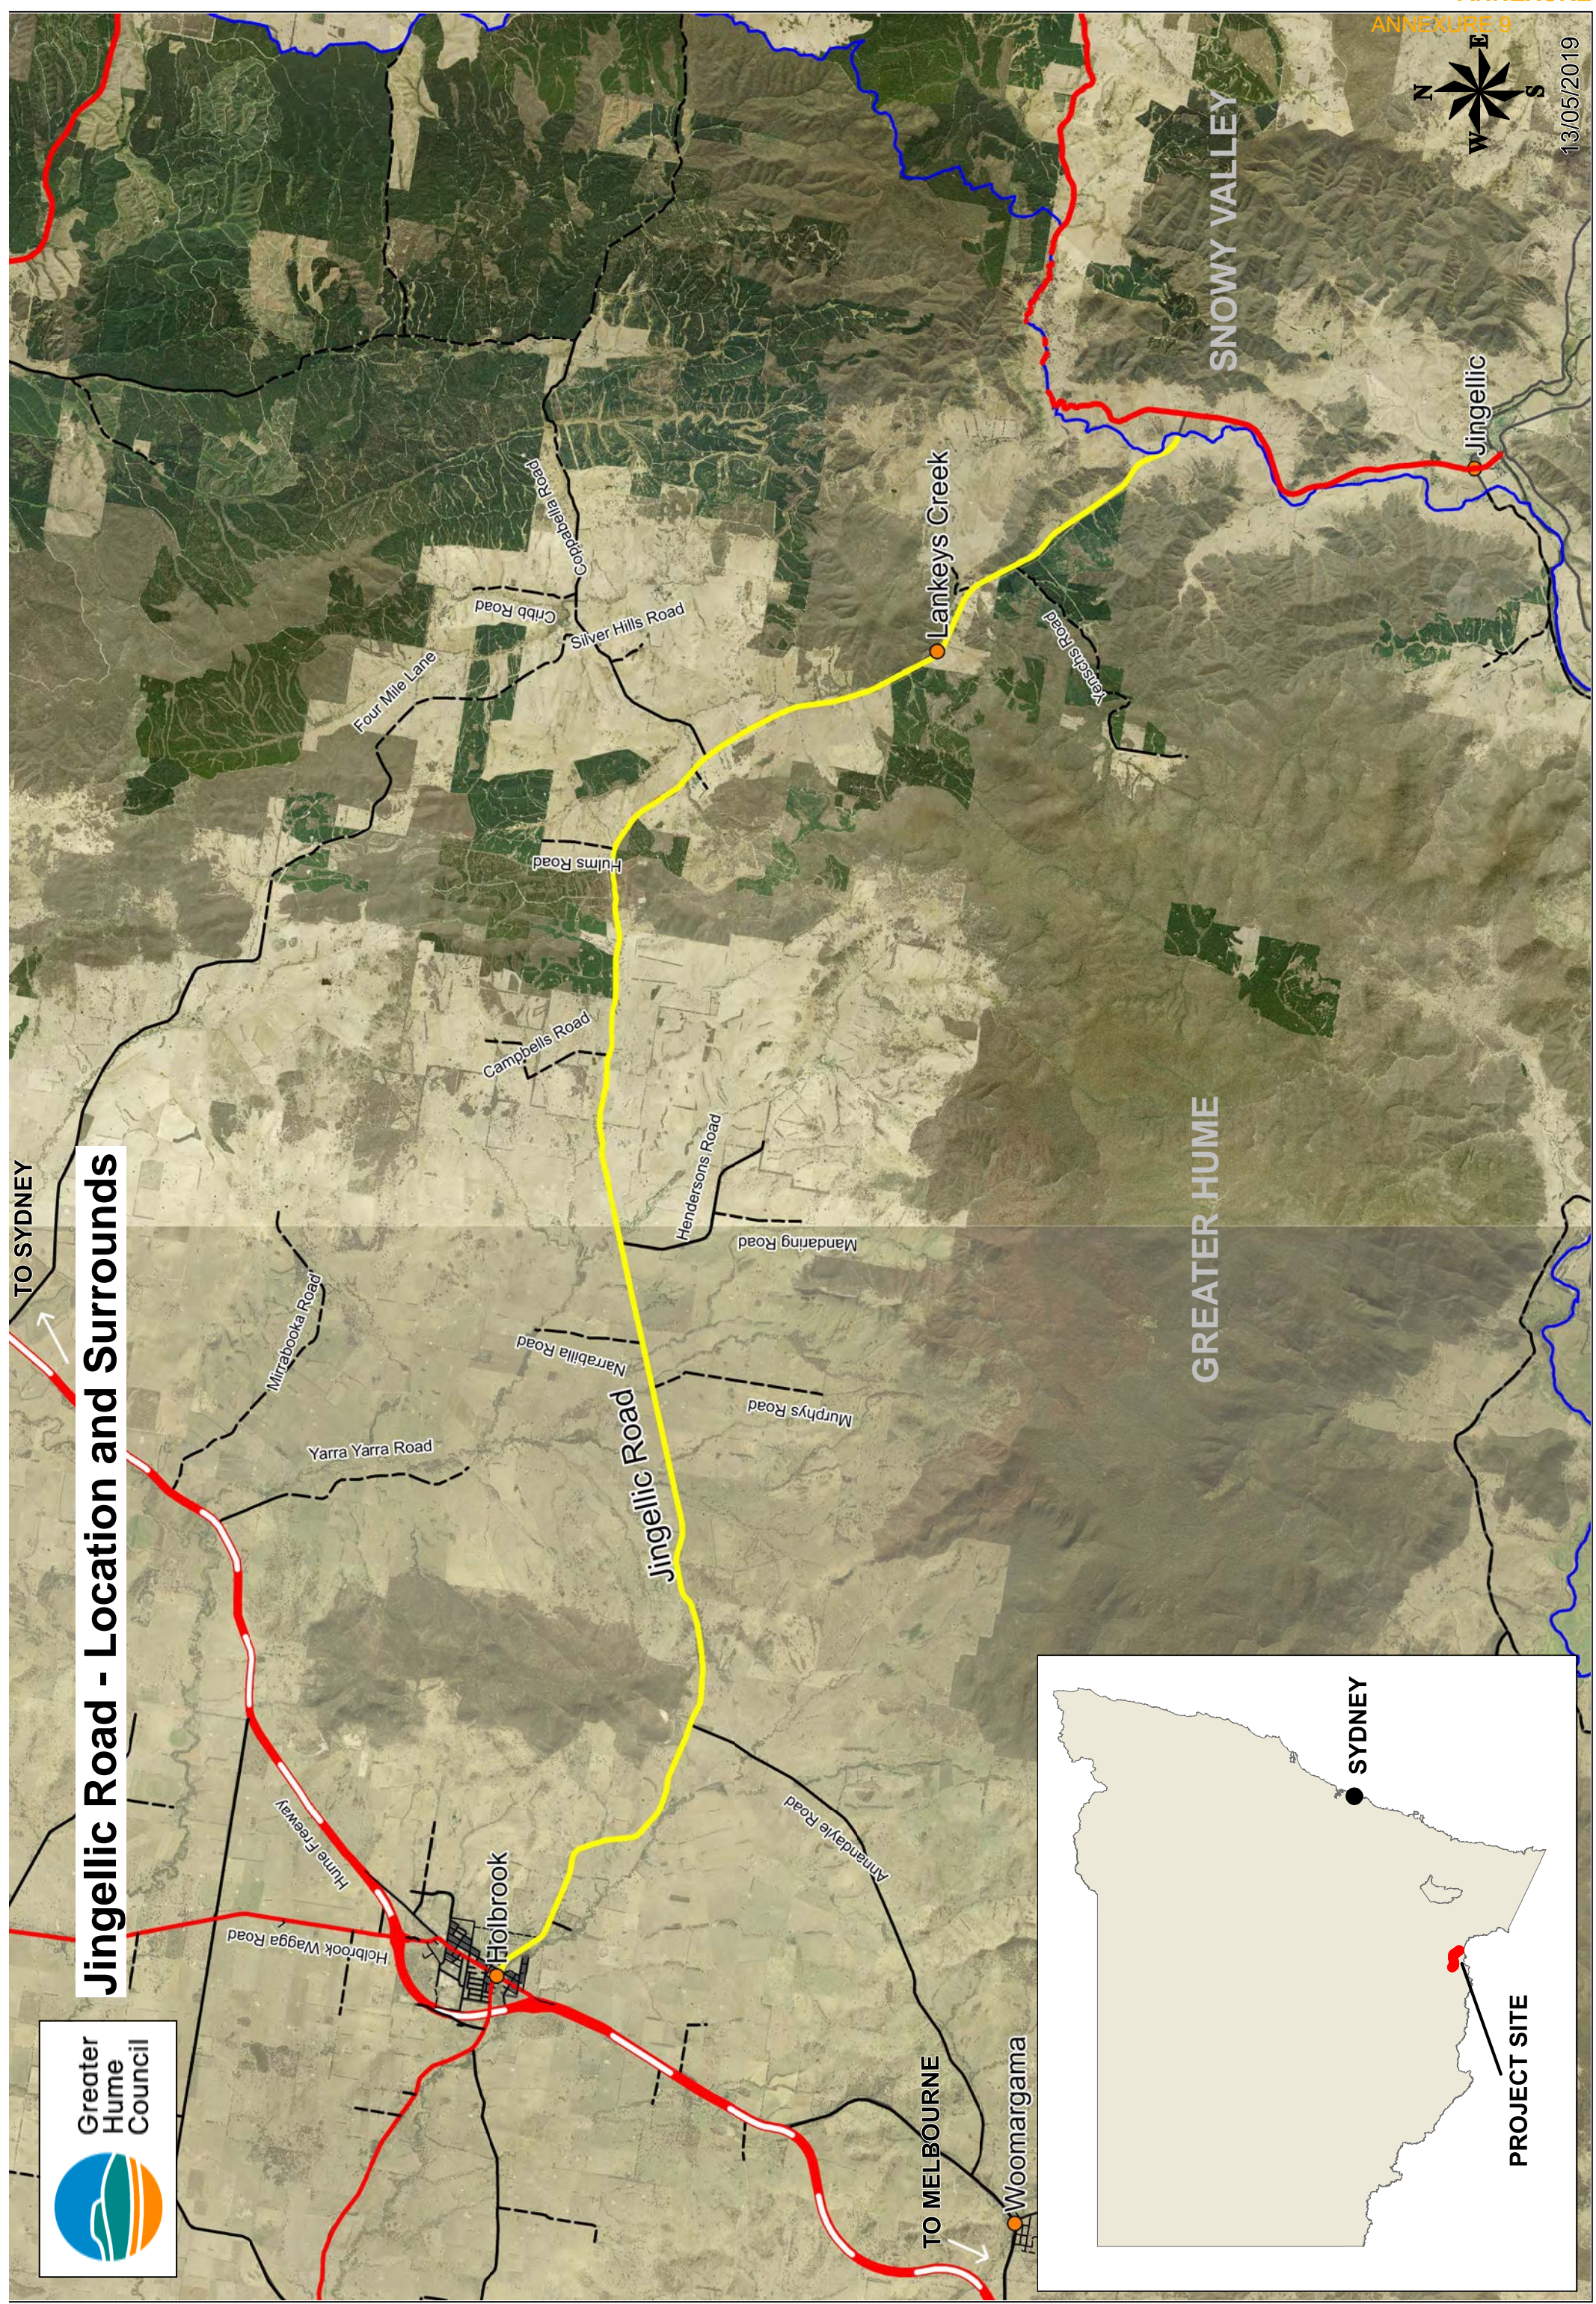

The works involve 37.9km of road reconstruction and widening and the replacement or widening of 5 bridges.

The costs in the report are indicative only, however future detailed investigation and design work are proposed to allow detailed funding applications to be submitted.

## Current Expenditure

Average of last 4 years for Jingellic road

Maintenance           \$141,292

Capitol                 \$109.977

If work is completed

Maintenance           \$50k

Capitol                 \$80k

## Improvements

Stage 1 completion will improve road from poor to fair

- All bridge structures will be HML compliant, and widened (5 bridges at Wantagong)
- Worst sections of road reconstructed (Wantagong, and from top of Yarrara Gap to Coppabella Road)

Stage 2 completion will improve road from fair to good

- Widening and Reconstruction from Coppabella Road to Council Boundary (Intersection with State road MR 85)

Stage 3 completion will improve road from good to excellent

- Widening and Reconstruction from Holbrook to Ch10.6km, Completion of this work along with other stages will have the full length of MR 311 (Jingellic Road) upgraded to an 8m seal 10 formation for its entire 45km length
